## Top Skills

Analytical Skills

Artificial Intelligence (AI)

Python (Programming Language)

## Summary

I am a 2nd-year student at the University of Information Technology, Vietnam National University, Ho Chi Minh City. My major is Computer Science which mainly focuses on Machine Learning.

I have broad experience with programming languages such as c++, Java, Python, SQL... gaining from practical projects.

In addition to that, I have essential working skills such as project management, interpersonal communication, and leadership, which I have learned from various positions in school activities, as well as in professional working.

My long-term goal is to become a senior AI engineer who can contribute cutting-edge techniques to the organization and to society.

# Kim Anh Nguyen (Ms)

Computer Science Student

Ho Chi Minh City

## Education

### University of Information Technology

Bachelor's degree, Computer Science · (September 2020 - June 2023)

Achievements: Participating in the National Mathematical Olympiad for students in 2021

Activities: - Member of Publication team @ DEVELOPER STUDENT CLUB - Member of Coding & Programming team @ Student AI CLUB

During my time at UIT, I have gained a lot of valuable learning, including both research skills and practical experience. My major is mainly in the field of artificial intelligence, especially machine learning.

### Nguyen Trai High School for The Gifted

High School Diploma, Mathematics · (September 2016 - June 2019)

Activities and Societies: Co-authors of the book "Why are primitives and integrals difficult?" - Training material for students who participate in the national university entrance exam

I had experience in a professional education environment, which has good teachers and excellent students. Here, I practiced my logical thinking skills and learned a lot about Math and its application in real life.

## Professional Experience

### Mass Recruitment Ltd

Freelance recruiter

My main tasks included writing and posting job ads, searching and screening candidates, delivering career consulting for candidates, collaborating with hiring managers to schedule interviews and following up with candidates during probation time. I have learned a lot about interpersonal skills and planning skills during the time working at Mass Recruitment.

### Tri Thuc Education Ltd

Private Math Tutor for secondary school student

My main tasks included preparing lesson plans, giving one-on-one Math lessons for students who are preparing for the high school entrance exam, communicating and consulting with parents about students' academic performance and career directions. I acquired more coaching skills and time management skills when working as a tutor.
